

14th October 2021

Dear Members,

I hope you are all keeping well during these challenging times. I am writing to advise you of Life Saving Victoria's updated position regarding COVID-19 vaccinations.

To comply with the latest Victorian Government roadmap, LSV has identified that members, employees, industry and community partners, contractors, and visitors need to be vaccinated against COVID-19 to be able to:

- attend an LSV or club facility in person,
- deliver an LSV or club service, or
- participate in an LSV or club activity in person.

This extends from our emergency services role to our community sports and recreational activities, and to the training and customer service areas of our operations.

Exemptions will apply as per the Chief Health Officer directions, and we will support those with a valid exemption to continue to participate in lifesaving in a safe, inclusive and practical way.

Edithvale Life Saving Club will be accepting membership applications from unvaccinated members, however unfortunately, such members will be unable to attend an LSV or club facility, deliver an LSV or club service, or participate in a club or LSV activity under the current Government roadmap.

Further information on LSV's vaccination position and how it will be managed has been detailed in a comprehensive FAQs document attached to this letter.

Thank you for your ongoing support in lifesaving and for your understanding throughout the ever-evolving circumstances of the pandemic.

Kind regards,

A handwritten signature in black ink that reads 'Dianne Montalto ESM'.
